EBS.500

Designed for sawing all kinds of metal tubes, pipes and profiles up to 125 mm (5") wide. The simple adjustment of vice, cutting angle and sawing speed make this a very practical metal sawing machine for every workshop.

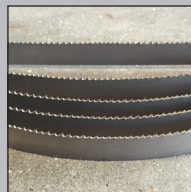

Technical data

Motor power	1010 W input (single phase motor)
Rated voltage	110-120 V or 220-240 V
Rated frequency	50-60 Hz
Cutting speed	adjustable, 30 – 80 m (100 – 265 ft) per minute
Cutting angle	adjustable, 0° - 60°
Cutting capacity	0° 125mm (5") ○ 130x125mm (5"x5") □ 45° 76mm (3") ○ 76x76mm (3"x3") □ 60° 50mm (2") ○ 50x50mm (2"x2") □
Saw band	13 x 0,65 x 1440 mm, 10-14 tpi M42 10% cobalt
Dimensions	650 x 310 x 450 mm (machine) 724 X 375 x 460 mm (packaging)
Weight	20 kg (machine) 22 Kg (including packaging)

Replacement band saw

13 X 0,65 x 1440 mm,
6-10 TPI. 500.0001
(Set of 5 pieces)

1. Wide cutting angle adjustment range
2. Simple speed adjustment with quick guide

Features

- Powerfull motor
- Patent noise reduction system
- Digital electronic speed regulator "constant speed"
- Double motor protection: amperage limiter, temperature limiter
- Chip scraper
- Anti-reset safety function
- Steady and sturdy steel base
- User-friendly vice with clear indicators
- Ergonomic handgrip
- Adjustable bar stop rod for mass-produced cuts
