MAGNETIC KEY CAPS™

HIDE YOUR KEY™

OVERVIEW Convert your keys into magnetic keys with attachable magnetic key caps. Magnetic key caps are made with neodymium, the strongest magnet material available. Durable elastic rubber cap provides secure fit for all common entrance keys. Simply insert key into magnetic key cap and place on metal surface such as mail box, filing cabinet, shed and more. Available in 2 color combinations, other colors and combinations available upon request.

FEATURES

- Eliminates need for bulky hide-a-key case
- Permanent neodymium magnet is embedded in synthetic rubber key cap
- Durable key cap securely holds all common entrance key heads
- Pliable material won't tear, crack or fade
- Ideal for storing or hiding spare keys on any ferrous metal surface such as mailbox, tool box, file cabinet, machinery, shed, and more
- Colorful caps help organize keys — color coded for quick access
- Safe for use around computer devices, USB flash drives, smart phones, and transponder keys
- Permanent magnetism guaranteed

MAGNETIC KEY™

Keys that Connect™

OVERVIEW

Powerful magnet holds keys securely onto metal surfaces making them perfect for storing or hiding. Magnetic keys are made with a neodymium ring magnet imbedded in the key head. Multiple magnetic keys can be carried together – powerful magnets attract to each other, eliminating the need for a key ring. Available in multiple colors to organize keys and to help find the right key, the first time.

FEATURES

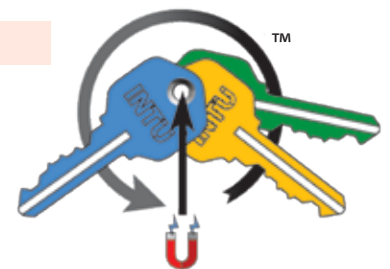

- Eliminates need for bulky hide-a-key case
- Permanent neodymium magnet is embedded directly into metal key
- Keep sets of keys together with no need for a key ring
- Hide or store spare keys on any ferrous metal surfaces such as a door jamb, mailbox, shelf, locker, shed, and more
- Color coded for quick and accurate access
- Safe for use around computer devices, USB flash drives, smart phones, and transponder keys
- Permanent magnetism guaranteed
