

# CLAW COVER® C5CMX

The Original Thermal Cut Resistant Glove

## APPLICATIONS

Food Processing  
Off Hand Glove  
Direct Food Contact

## FEATURES

Scoring ANSI A7 for cut resistance, the Claw Cover® C5CMX food processing glove protects the off hand against hazards typically seen in the food processing industry. Blending high-performance synthetics with stainless steel delivers outstanding protection in high hazard applications. C5CMX is also the industry leader in comfort, with unique moisture-wicking properties. The STA-COOL® lining provides excellent thermal properties and wicks perspiration away from the skin to keep the wearer dry and comfortable. Hands stay warm in cold conditions; cool in hot conditions. Excellent laundry characteristics extend wear life. The C5CMX is compliant with FDA 21 CFR 177.2800 and approved for direct food contact. Made in the USA.

## ATTRIBUTES

<b>STYLE</b>	Seamless knit
