

# CLAW COVER® C6

Excellent Protection for Off Hand Use

## APPLICATIONS

Food Processing  
Food Manufacturing  
Off Hand Glove  
Direct Food Contact

## COLORS

## FEATURES

First class cut protection in a high performance, 10 gauge food glove. Designed to protect the off hand, the Claw Cover® C6 delivers an outstanding ANSI level A7 cut resistance thanks to a precise blend of high performance fibers and stainless steel. Plus all the comfort and dexterity you expect from a medium weight knit glove. Constructed according to US FDA 21 CFR 177.2800, Claw Cover gloves are approved for direct food contact, and appropriate for food manufacturing and processing environments. With great laundry features and strong abrasion resistance, you can count on the C6 food processing glove for a long wear life and excellent value. A longer, extended cuff version of the C6 is also available. Made in the USA.
