

MSATA/HACM

Cut Protection Plus Cooling Comfort

APPLICATIONS

- Appliance Manufacturing
- Automotive
- Metal Stamping
- Paper Manufacturing
- Plastics and Molding
- Public Utilities

WITHOUT THUMBHOLE

WITH THUMBHOLE

FEATURES

Keep your arm cool, comfortable and well protected with the MSATA/HACM sleeve. We started with ATA® Hide-Away™ fibers to give the wearer solid ANSI level A4 cut and slash protection. Next, a STA-COOL® inner layer wicks moisture away from the arm, keeping the wearer dry, cool and comfortable for hours. A darker color than traditional cut resistant sleeves, the Hide-Away™ technology hides dirt and soiling. That, plus easy laundering, extends the overall life of the product. This seamless, tubular knit sleeve is a comfortable 3" wide. Made in the USA, too.

ATTRIBUTES
