

MSULTRAHV01

ATA® ULTRA Comfortable, Light Weight Protection

WITHOUT THUMBHOLE

WITH THUMBHOLE

APPLICATIONS

- Metal Fabrication
- Automotive
- Construction
- Material Handling
- Paper Manufacturing
- Injection Molding

FEATURES

Ounce for ounce and dollar for dollar, new ATA® ULTRA products last longer. Even more remarkable, the ultimate in abrasion resistance is just the first of many significant improvements. The MSULTRAHV01 knit sleeve is just 1 ply thick, so it breathes and is comfortable to wear all day while staying protected by ANSI level A3 cut resistance. The high visibility orange color helps keep wearers and co-workers alert, reducing the chance of accidents. Comfortable seamless design, ambidextrous, easily washable – all the benefits you expect from the ATA® brand are included in ATA® ULTRA featuring Twaron. Made in the USA.
