

S-2X1

5" Wide for Comfortable Cut Protection

APPLICATIONS

Automotive
Metal Fabrication
Construction
Appliance Manufacturing
Glass Handling
Paper Manufacturing

FEATURES

At just 1 ply thick, the S-2X1 sleeve scores ANSI level A4 cut resistance without being the least big bulky. And at 5" wide, it can be layered over a shirt, a sweatshirt, or worn on its own. It even fits guys with big arms. An elastic top helps this cut resistant sleeve stay up comfortably on the arm. Using state of the art ATA® fiber technology makes the S-2X1 sleeve one of the strongest, most versatile pieces of arm protection on the market today. Light weight for wearer comfort, it can be worn either on the left or right arm. Machine washable for repeat use. Made in the USA.
