

# M2284

*Economical and Eco Conscious*

## APPLICATIONS

Food Processing  
Direct Food Contact  
Automotive  
Appliance Manufacturing  
Metal Fabrication  
Used as a Liner Glove

## FEATURES

Comfortable, medium weight M2284 gloves are an economical choice for general hand protection. Part of our ECO Gloves line, they feature an Earth-friendly cotton/polyester blend. The cotton incorporates as much as 100% recycled cotton. While the polyester is 100% made from recycled post-consumer plastics. 21 CFR compliant, M2284 gloves are used in the food processing industry and several industrial applications. They deliver great abrasion resistance plus easy machine washability for a long usable life.
