

Emergency Gas and Water Service Shut-Off Wrench - Item 2750

Water Shut-Off Instructions:

1. Locate your water meter box (usually at the street or sidewalk). Remove cover to access the shut-off valve.
2. Insert gas shut-off bar onto water shut-off wrench. This makes a handle.
3. Use the Water Shut-Off Wrench along with the Gas Shut-Off Wrench to turn the valve 1/4 of a turn and shut off the water.

Gas Shut-Off Instructions:

SHUT OFF THE GAS AND CALL YOUR SERVICE PROVIDER

1. Locate the main gas shut-off valve next to the gas meter on the inlet pipe.
2. Use one of the slotted holes on the Gas/Water Shut-Off Wrench to fit over the shut-off valve. For industrial use, you may have to use our Water Shut-Off Wrench to fit a larger valve.
3. Turn the valve 1/4 of a turn to shut off the gas.

WARNING! ALL PILOT LIGHTS IN AND AROUND THE HOME WILL GO OUT WHEN YOU TURN THE VALVE OFF. BE SURE TO CALL THE GAS COMPANY OR A LICENSED PROFESSIONAL TO TURN THE GAS BACK ON AND TO RELIGHT ALL OF THE PILOT LIGHTS. DO NOT DO IT YOURSELF

CAUTION: When testing your gas valve or the wrench, do not turn the main valve more than 1/8 of a turn to the right or left. If you do, your pilot lights will go out and will require a qualified professional to relight.

 **WARNING:** This packaging can expose you to chemicals including Vinyl Chloride, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov.

 **ADVERTENCIA:** Este embalaje puede exponerle a químicos, incluyendo cloruro de vinilo, que es conocido por el Estado de California como causante de cáncer. Para mayor información, visite www.P65Warnings.ca.gov.
