

## 4-Piece Spring Tube Bender Set – Item 61600

1. Slide flared end of spring over tubing, covering area to be bent.
2. Applying pressure equally to each side of tube, bend tube slightly beyond desired angle, then back to desired angle.
3. To remove spring, turn spring counterclockwise in direction of flared end and spring will slide off tube.

***User Tip: For a better result, use one bender over the tube and an additional bender inside the tube.***
